## Objective

I'm freelance writer and I mostly create content. I'm also a biomedical engineering student at the University of Ilorin.

Because "content is king," a brand must have well-written content. A writer must be flexible; in addition to writing about health and wellness, I also write about health technology. My writings Offer the best reading experience because I have excellent written and verbal communication skills. Please read on for more information and don't hesitate to get in touch.
